Set a goal that you have control over!

What is it that you can achieve based on your skills and efforts?
Break down the big goal into the small ones.

Example - I had achieved my ideal level of freedom (which includes me feeling uplifted and hopeful in the morning/at the end of the day) by the end of this month (date).

FUCUS on 1-2 goals that's it!

Assignments

1 **Book of positive aspects** (write into it every day, 3-10 things you **can** appreciate about yourself)

2 **Change your story** (what do you tell yourself and others about yourself) write down a 5-10 sentence story focusing on understanding, accepting your own path in life and your new connection with yourself. Example - now I feel independent and free, separating my feelings from other people's perception of me. Now I am learning to appreciate myself. One day soon enough I will be totally in peace and even smile about my experience with myself in the past. What a life I have! What a transformation!

What can you appreciate you will bring on, so **FOCUS** on all the things good you can find.

Daily practice
